information regarding the storage unit prior to the threat on the case agent and AUSA.)

3. BATFE Special Agents subsequently notified the FBI regarding the storage unit and the threat on the agent/AUSA's life. The FBI initiated a murder for hire investigation which was reported under FBI reports of investigation.
4. Pursuant to a federal search warrant on the storage unit in the name of **Adrian SANFORD**, (a co-conspirator) BATFE Special Agents discovered a menagerie of property and a small cache of weapons, including an H&K model 91 and an UZI submachine gun. Both weapons happened to be semi-automatic and not select fire (fully automatic), consequently the items were not seized at that time per BATFE guidelines. The owner of the storage unit, after proper notification, declared the weapons abandoned and was going to auction the weapons. The items were subsequently held for safekeeping pending consultation with DEA regarding the results of the search. Upon relaying the results of the search to SA Hella, it was discovered that the items had evidentiary value to the FBI investigation regarding the attempted murder of SA Stark and AUSA Braun.
5. On June 26, 2006, pertinent items taken in the BATFE search, including the weapons, were transferred to SA STARK, via Federal Express and were subsequently assigned Exhibit numbers **N-286 through N-297**.
